## Fundraising using kits

**Direct Sales** The quality of these kits is a great benefit in directly selling at community events and high traffic locations around town. Having kits on hand often adds sales to customers you would not otherwise see. We suggest combining order taker sales with direct sales—taking orders from friends and family, then using the profit to buy enough kits sell later at a larger venue. Our case discounts are the best values!

**Brochure sales** Brochures are a simple way to raise funds without having to spend money up front. Our brochure program allows your organization to print what they need, when they need it with no sales commitment. We can customize the brochure with your name and your pricing information.

**Organizing your sale** 1. It's EASY to create your own customized brochure using combinations of products on our site!! Use only 3 or four products - distributing and breaking up orders is easier. Print up the brochure - or order taker - (we can provide fliers \*) and distribute to group - allow 2 weeks to sell and remind everyone after the first week. Hold to the deadline - but expect stragglers.

2. Order - Just send an e mail, call our toll free number, or use the form on line to place the order - we will send a confirmation within one business day. We ask you to double check accuracy of amounts and delivery address at that time. We don't need the individual orders. We will break up cases so order just what you need. Order once if you can - it's cheaper to ship larger quantities.

3. We deliver the order to you - generally inside of 2 weeks.

We can take school Purchase Orders, Checks from group accounts - or any major credit card
