## Customizing Blankets

**Embroidery** : We can embroider or laser engrave your stadium blankets to enhance value. Embroidery gives a classic look but due to its nature - embroidery takes lots of stitches to fill in graphics. For this reason - most blankets are embroidered with text only. Cost for embroidering logos and graphics can get quite high without actually increasing sales of your blankets. Most supporters will be happy to get a phrase - on a blanket -it looks very nice.

**Laser etching** : is the newest way to decorate blankets. The outer layer of the fleece is laser etched to reveal the inner liner. While the look is not as vivid as an alternate colored thread- there is not incremental cost for size. Up to 7" square can be laser etched allowing for large simple shapes to be added in an inexpensive manner.
